-

### **Significant National Weather**

**Severe Weather:** There is a Marginal Risk of severe thunderstorm activity today in the north-central Plains and the Northeast.

**Tornado Weather:** There is less than a 2-percent chance of tornado activity today in all areas of the U.S.

**Critical Fire Weather:** There is no Critical Fire Weather forecast for today throughout the U.S. However, there is an Elevated Risk of fire activity in southern Wyoming.

**Significant River Flooding:** Significant river flooding is possible or likely for parts of Iowa, Missouri, the upper Mississippi River and west-central Florida.

**Earthquake Activity:** No significant activity.

**Tropical Weather:** No tropical activity is occurring that poses a threat to any US territory. There are no coastal watches or warnings in effect at this time.

### **Report of Incident Notifications**

**Region 5, River City Marina Oil Spill, Chicago River, Chicago IL - Overview:** On Tuesday September 8 at 6:30 PM CDT, a tenant at the River City Condominiums reported an oil sheen/discharge of an unknown oil (potentially gasoline) at the River City Marina. It was suspected that the discharge may be coming from a private non-commercial boat. An EPA Region 5 OSC responded to the site on September 9 to conduct an assessment and coordinate with the USCG, no further by action by EPA is expected.

There were 29 epaos.org websites created and/or updated during this reporting period  
**09/08/15-09/09/15.**

### **Exercises/Predeployments**

The Interagency Modeling and Atmospheric Assessment Center (IMAAC) has been activated at 090815Z Sep 2015 to assist the FEMA National Watch Center for a 10K ground burst RDD in city center Dallas, TX. IMAAC is developing an initial model calculation for the requesting agency.
